Dear Mr. Weisberg:

As suggested in your letter of April 30, I wrote to the National Archives to request any information that they may have regarding any and all arrest made in connection with or at the time of the assassination. I have enclosed copies of the correspondence relevant to that matter, which are in my possession at this time.

Perhaps you read the article in the June 29 issue of Ramparts magazine entitled "Some Disturbing Parallels" by William W. Turner. If not, I think you might find it interesting particularly with regards to the photographs showing one of the three men apprehended behind the knoll area.

On July 22, I will be leaving for Washington where I plan to spend my vacation this year and also do a little work in the National Archives. Possibly I may have an opportunity to see you while I am there.

Sincerely,

Emory L. Brown Jr.
